

**City of North Little Rock  
Comprehensive Land Use Plan**

**Authority**

Whereas; Act 186 of the Acts of the Arkansas General Assembly of the Year 1957, and all amendments thereto give authority to preserve and promote, in accordance with present and future needs, the public health, safety, and general welfare of the inhabitants of the City of North Little Rock, and of the public generally, and to encourage and facilitate the orderly growth and expansion of the municipality.

**Purpose**

The purpose of the North Little Rock Comprehensive Land Use Plan is to ensure land resources are allocated for uses that will accommodate and enhance North Little Rock’s economic development, housing, community facilities, natural and historic resources and to protect and improve the quality of life of City residents.

**Introduction**

A Land Use Plan is a prerequisite to zoning. The current map was adopted in 1987 and these updates are a restatement of the Community’s desire for the future community. As a first step, neighborhood meetings were held where the map was reviewed and neighborhood comments noted. Based on these meetings, changes to the map were recommended by staff and adopted by the Planning Commission in October 2002.

During the past two years, the City of North Little Rock has conducted land use assessments to evaluate the success of past efforts in addressing citizen needs. Based on these assessments, the Planning Commission has adopted the Goals and Objectives and Land Use Plan Map to guide future land use decisions.

**Goal 1: Maintain and enhance a strong sense of community in North Little Rock.**
